# Vikas Kushwaha

**Full Stack Developer**

## Education

### Annasaheb Vartak College
*B.Sc. Computer Science (ongoing)*

Vasai West, Mumbai
*2022 – 2025*

## Experience

**2023**

**My Personal Website** **(Hugo)**
Hosting some studying material for B.Sc Computer Science students.

**Scraping Exam Results** **(AWK)**
Scraped my exam result's PDF(s), extracted student's data and turned them into web pages.

**2024**

**BITS24 Website** **(Web)**
Worked on organizing a Techfest event in our college whose website was build by me and my team.

**Cloud Maker Project** **(Go)**
IOT application for my semester 5 project whose documentation was done in LaTeX.

## Skills

**Web**  I have build various statics as well as dynamic sites using technologies like Nginx, Python+Flask, Go, etc.

**IOT**  I personally own and have worked with electronics like Rasberry PI, Arduino Board and some sensors.

**Linux**  I have used many distributions including Debian which I use on my VPS and my Rasberry PI device.

**Scripting**  I have done more scripting than programming.
